WHY THE NEED OF A LICENCE?

HOW TO BECOME AN AIRCRAFT TECHNICIAN

Who does aircraft maintenance must be proficient and qualified.

Who is authorised to certificate maintenance must have the appropriate licences and/or authorizations.

The Aircraft Maintenance Licence (AML) is an official document that certifies the obtainment of knowledge and experience qualifications required by the european regulation for the categories and subcategories indicated on the license.

See how to obtain the licence

AML APPLICATION REQUIREMENTS

To apply for an AML it is necessary to demonstrate the acquisition of Basic Knowledge and Basic Experience.

Basic Knowledge is demonstrated by passing Part-147 examinations of the respective basic modules of the AML licence to be obtained.

Basic Experience is obtained by doing practical activities by approved aeronautical operators and/or hangar. The required years of experience can be reduced with the conditions defined in the regulation (EU) 1321/2014 at the point 66.A.30.
